

Howarth English Horns

The S20 Model is our intermediate cor anglais; it is made to the same specification as the S20C model oboe. It is relatively light in weight and has covered keys, making it ideal for the younger player.

The S40C is our graduate model cor anglais. It is suitable for advanced students and professionals alike. The S40C has a conservatoire keywork system. It has keys for almost every trill and produces a rich, mellow tone. An ideal instrument for the advanced player, this cor anglais is excellent value for money.
